

March 1, 2019

Infunde Development invites expressions of interest from suppliers to procure, transport, install, and maintain a met mast for a Wind project in Indonesia.

Infunde is co-developing a Wind Power project in Indonesia, together with its local partner. Infunde acts on behalf of InfraCo Asia Development Pte. Ltd. (“IAD”) as its exclusive developer in various Southeast Asian markets, including Indonesia, to originate and develop infrastructure project opportunities. IAD is a donor-funded infrastructure fund, headquartered in Singapore and a member of the Private Infrastructure Development Group.

After receipt of the Expression of Interest (EOI) and execution of a non-disclosure agreement (NDA), the terms of reference and associated documents will be provided to qualified suppliers.

For more information on the project background and scope of work, please fill out the online form expressing an interest in responding to the Request for Proposal #61. Interested suppliers will be contacted upon receipt of the Expression of Interest. We expect interested suppliers to also attach the project references and credentials for conducting such work, along with the Expression of Interest. Failing to do so will result in disqualification unless otherwise informed.

The Expression of Interest period will close on 27th March 2019.

The Request for Proposal (RfP) and Terms of Reference will be sent to shortlisted suppliers after review of their technical qualification and relevant work experience.
