Project round-up

Bonengin Irrigation, Senegal

EAIF’s €36 Million loan to the new Atinkou power station in Côte d’Ivoire is boost for growing economy

Prabaljit Sarkar, Director of Business Development at InfraCo Asia, presented three case studies covering InfraCo Asia and GuarantCo projects at the Convergence Blended Finance Conference in Jakarta. The conference was attended by delegates representing various ministries and agencies of the government of Indonesia, donor governments, UNDP Indonesia, as well as private sector financiers and project development firms.

InfraCo Africa and solar equipment specialist, Bonergie Senegal, have established a local SPV, Bonergie Irrigation SASU, to implement high quality Solar Powered Irrigation Systems across rural Senegal. The first phase of the project will replace existing diesel pumps and provide small-scale farmers with first time access to irrigation.
